Dugdale

Rigid and flexible PVC compounds

High performance PVC compounds & alloys

FLEXIBLE PVC COMPOUND DATA SHEET

GRADE: **C214/065**

DESCRIPTION: **PVC COMPOUND**

PRODUCT FORM: **PELLETS**

Property	Test Method	Units	Value
Relative Density- S.G.	BS2782 620A	g/cc	1.37
Softness-BSS Number	BS2782 365A		65
Softness-Shore A Hardness			64
Tensile Strength MN/m2	BS2782 320A	MN/m^2	8.1
Extension at Break - %	BS2782 320A		300
Modulus at 100% - MN/m2	BS2782 320A	MN/m^2	5.17
Cold Flex Temperature	BS2782 150B	° C	-30°c

Please note that the above figures are typical values and do not constitute any part of a product specification.

Special Characteristics:
This grade is formulated with specialised plasticisers designed to improve the resistance of the material to the effects of mineral oils.
