ACCESS SOLUTIONS

SOLUTIONS

Whatever your project demands, we can help with a comprehensive range of access hardware and custom solutions.

Our essential solutions are delivered with consistent quality, reliability and supported by outstanding customer service. With free CAD's, samples and technical support available, there is no better choice for your solutions provider.

Our expertise ranges across multiple industries, supported by outstanding customer service. We can reduce your lead times, and provide custom solutions and technical support to help you achieve your business goals.

INDUSTRIES

Indoor & Outdoor Cabinets

IT Cabinets

Transformers

Industrial Machinery

Power Generators

HVAC

Road Transportation

Rail Transportation

Food Industry

Diversified Applications

LOCKS / LATCHES

Our latches give you what you need for every application. Materials range from durable polyamide and steel cams to corrosion-resistant stainless steel. With latches for both indoor and outdoor applications, high or low security needs, our products combine both form and function.

HINGES

You're spoiled for choice with our range of high quality hinges. Be it plain or flush mounted doors or cabinets, concealed hinges or side hinges. Made from high security and corrosion resistant materials, there is a hinge for all your needs.

GASKETS

Prevent liquid or gas leaks with our high-performance gasketing & sealing solutions. Easy to apply and available in a range of materials, including PVC, EDPM, rubber blends, and a blend of neoprene, nitrile and PVC.

ACCESSORIES & HANDLES

An extensive range of accessories are designed and manufactured for a variety of industries and applications using rubber, plastic and aluminum. Manufactured with ergonomics and aesthetics in mind, our handles utilize reinforced plastics and aluminum to assure an easy fitting.

ELECTRONIC

ELS, our integrated access control system incorporates electromechanical handles, access control units and a monitoring system complete with system sensors. The sensors can detect use, allow management of temperature and maintain cabinet security. Use an RFID card, keypad or remote control to manage door access and retrieve detailed reports of cabinet status whenever you need it.

CUSTOM SOLUTIONS

Sometimes you may not find the perfect solution amongst our portfolio of standard products. You may require a small variation, an alternative color, material or size.

Talk to our in-house team of design engineers and work directly with our R&D and manufacturing centers to develop a solution to meet your needs.

We utilize 3D printing technology to showcase our designs which ensures your specifications are met and assists in expediting lead times from quotation to delivery.

Capabilities

- Design custom products
- Range of color choices
- Customer logo requirements

R&D

Facilitated by our state of the art R&D facilities, we are constantly pursuing innovation to offer new and alternative solutions.

Technical capabilities

- Proven in-house engineering design team
- All items available in 3D CAD
- Advantage of 3D printing
- Cross-sector experience

PRODUCTION

Our philosophy in production centers is on delivering value to our customers by producing high quality components, on time and at low cost. With the introduction of CNC controlled machines and robot technologies, a significant increase in capacity and quality has been achieved.

Manufacturing technology

- Zinc Die Casting
- Plastic Injection Molding
 - Stamping
 - Machining
- Powder Coating
- Polyurethane Sealing Foam Technology
 - Barrel, Cylinder, Keys Technology
 - Tooling
- Custom Machines

QUALITY

We understand that continuous improvement in all of our processes drives customer satisfaction. We ensure our products exceed customer expectations through manufacturing to RoHS standards, and compliance with Registration, Evaluation, Authorization, and Restriction of Chemicals (REACH)

We operate a stringent quality assurance program, ensuring procedural controls are applied to all activities that affect the quality of our products and services.
